

## APOLLO ROOFING SOLUTIONS INVESTS £1.2M IN NEW WAREHOUSING FACILITY

Our new warehouse

Apollo Roofing Solutions, a manufacturer of adhesives, liquid coatings, sealants, and primers, has completed work on a new £1.2m warehouse to increase capacity and facilitate future growth.

This latest investment is announced just five months after Tamworth-based Apollo also opened a new £540,000 technical centre in response to growing business demands and its commitment to customer support.

Commenting on this latest development, Apollo Managing Director, Ian Cornelius, said: “During the last five years, we have seen tremendous business growth and almost doubled the number of employees as we’ve developed the Apollo Roofing Solutions brand.

“We recognise that in order to continue to add value for our customers we need to continually invest in our infrastructure, and our people. By doing this we can respond to our customers’ needs as they develop and ensure that our processes run smoothly as we continue to grow our business.”

The new 1000m<sup>2</sup> warehouse facility has been built to exacting standards, includes streamlined loading and unloading areas and new processing systems to deliver products to customers more efficiently.
