

Good Afternoon

UNCOP26 Climate Change Conference in November in Glasgow (Brett Amphlett)

The Construction Leadership Council's initiative is called "CO₂nstruct Zero" and is described in both the press release and overview document enclosed. There is also encouragement for individual companies to become what's known as Businesses Champions to demonstrate their efforts in the Race for Zero and eliminate carbon emissions from their operations.

Police Scotland Labour Exploitation campaign (Gordon Nelson)

Please find attached a **toolkit**, which includes everything you need to know about the campaign, the campaign creative/graphics and how you can help:

- Communicating our campaign through your social media platforms, mailing lists, internal publications/e-newsletters and any other channels available. The goal is to get the message out to the people who will be able to affect change, so any other routes you can think of to share the toolkit content, eg signs to look out for, would also be welcomed.
- Liking/sharing/retweeting messages posted on Police Scotland's social media accounts.
- Visiting our Labour Exploitation online microsite for all related information, including how to report any concerns (this site will launch next week with the campaign).
- Helping to increase vigilance across your industry, by reminding businesses to scrutinise their entire labour supply chain.
- Encouraging the reporting of all concerns to Police Scotland.

Kind Regards

Yvonne
